

Dear Parents,

WMP will once again be using the ParentREACH Emergency notification program to contact you for the following reasons:

- School Closings
- Snow Delay
- Early Dismissal
- Emergency Notifications

The ParentREACH program allows WMP to make one phone call to record a message which in turn calls all the WMP families. In order for this system to work properly, we must have the most current contact numbers. Please fill in the form below with ALL of the phone numbers you would like contacted with an emergency notification. The program only works if we have the most accurate and up to date information. If you have not previously filled out a form and fail to return the form, you will NOT be entered into the database and will not receive emergency messages, including school closings. If you filled out a form last year and your information has NOT changed you do not need to return the form.

**Key Tips To Remember**

- Do not block our numbers
- ParentReach’s caller ID is (411) 411-4111
- The system needs to hear a response before delivering the message
- Please wait after answering; the system needs one second of silence to activate.
- Press the # key to replay the message
- Make sure your emergency contact information is current.

If the system detects a busy signal it will call back up to ten times at three-minute intervals and deliver the message when it connects to a live person or answering machine.
